HPU

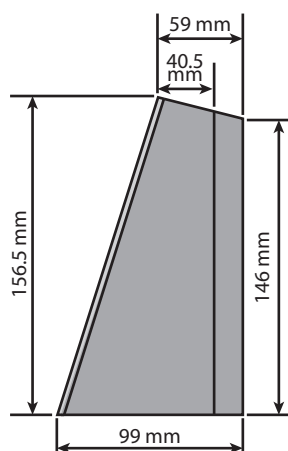

Client Universal Loudspeaker

HPU is a universal antivandal loudspeaker which fits into our MAGELLAN DESK Counter Intercom Systems. It is made of MDF enclosure and steel painted front. Its design allows HPU to be positioned either right or left client side. HPU can be connected to the MGL-DESK Compact Agent Desktop Console thanks to the connection cable delivered with MGL-DESK. The loudspeaker can be fixed to any type of support with screws.
