Client Microphone

MC is a Universal Client Microphone with vandal-proof design. This client microphone fits into our MAGELLAN Counter Intercom Systems.

MC is made of steel and stainless steel. Its capsule has been especially designed for intercom use.

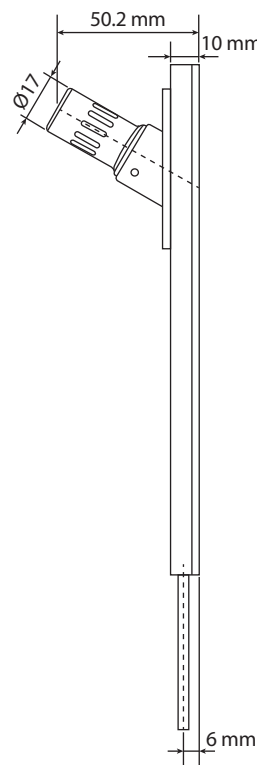

The client microphone can be connected to the MGL-DESK Compact Agent Desktop Console thanks to the connection cable delivered with MGL-DESK.

It can be fixed to any type of support using two screws and placed against the glass or on a shelf via its support.
